

ROBIN ARMSTRONG EXHIBITION

SATURDAY 24TH of JULY – SUNDAY 1ST of AUGUST

A wide selection of Robin's work will be on display at his latest exhibition at The Art & Frame Centre, Florence Road Business Park, Kelly Bray, Cornwall, PL17 8EX.

Exhibition will start on Saturday 24th of July to Sunday 1st of August. 10am to 4pm daily.

The Art & Frame Centre is a Covid secure venue but all events are subject to current government guidelines at the time.

He has coped with the isolation of the recent lockdown due to coronavirus by throwing himself into his work at his Horrabridge art studio based in a converted pig barn, producing a series of paintings for a new exhibition.

Widely regarded as one of UK's most respected wildlife artists, he describes the need to paint as 'building on a craving where he becomes more and more of a perfectionist' – during a hardworking art period he often starts early in the morning and can still be found at his easel painting late into the night. The result is a prolific output of a nature focused work. Featuring a wealth of wildlife from elegant birds to stunning fish and adorable otters. As well as his latest departure into abstract landscapes.

Art and nature have always been Robin Armstrong's passions for as long as he can remember and a large part of his life has been devoted to creating art in particular wildlife art.

Robin Armstrong (b.1947) began his career as a trainee illustrator in a London commercial art studio, working alongside professional artists gave him the opportunity first hand to develop and nurture his own style and technique.

Drawing and painting wildlife became his passion and many hours were spent in the dusty vaults of the national history museum in South Kensington, painting and drawing from skins, skeletons and such like..
